

The name of the thesis is "Education of policemen dealing with the investigation of child sexual abuse cases" and it is a summary of information in this area. The thesis is concerned with causes, consequences and forms of the act of the sexual abuse of children but also with investigation of these cases and its offenders. There is also a short overview of the legislation in the sphere of the sexual abuse, prevention and sexual education.

The task of the empirical part of the diploma thesis is to confirm or disprove the hypothesis about the opportunity of educating police in the field of criminal investigation of child abuse, hypothesis about the use of technical equipment and usage of knowledge of psychology.

Project Education of policemen (and related professions) dealing with investigation of child sexual abuse is also part of the thesis. It is determined for policemen dealing with investigation of child sexual abuse and for delegates from justice, physicians, social workers and other related professions. The aim of the project is to develop skills coherent with child sexual abuse cases because not everyone who is involved in this area, know these nor apply them.
